## Alston Annual Sports Day Enjoyed By Large Crowd

Softball, Novelty Races and Dancing Feature District's Annual Sports Day

Fine weather helped to make the annual Alston sports day on July 3rd a splendid success, in spite of the fact that two outside softball teams that had been expected were unable to be present.

The following softball games were played during the afternoon: A team of intermediate boys played against a team of girls from Alston and Harmony districts, the girls being the winners. Ten small boys from Champion played a mixed team of Alston boys and girls, the Alston team winning. The senior Alston softball team defeated a team of young men from Champion.

Between ball games, races and novelty contests were held on the infield. Mrs. W. Fleischman won the rolling pin throwing contest and also the race for married women. Richard Hiltz won the sack race. Eileen Strauss won the egg and spoon race. In the ball-throwing contest for men, L. Schumaker was first and W. Hiltz second. In the evening a team of men from Kirkcaldy played a married men's softball team from Alston. The score was 33-29 for Alston, and spectators and participants got a good deal of fun out of the game. Later, a large number danced to the music of the Anderson Sisters. The refreshment booth did a good business all day, and the committee is to be congratulated on the good service they gave.

## Civil Service Grows Too Big

Alarming Increase of Government Employees, About One in Five in Canada; Worse in Britain

Capt. J. Harper Prowse, M.I.A. in his regular column in the daily papers is roused by the alarming increase in government employees all paid for by the taxpayers. His article follows:

Nobody can view the steady increase in the number of government departments and activities without becoming alarmed at the number of persons who receive their livelihood out of the public funds of the country. This becomes especially important when considering government expenditure and considering ways of reducing the tax burden which lies so heavily upon all sections of our population at the present time.

I was discussing just this with a friend of mine in Ottawa and we decided that including all those who receive their livelihood from Dominion, provincial and municipal governments in Canada we must have something in the neighborhood of one million people in this class in this country. That would amount to about one in five of our employable population.

While I was pondering this fact I came across some figures on the number of civil servants in Britain today, and the extent of their government's activities. They seem to me to be both startling and enlightening.

The British civil service today comprises one-fifth of the country's total manpower. (This term of course, includes all those who are employable, and so includes women as well). One out of every three railway tickets sold in Britain is paid for by government voucher. One out of every five guests in British hotels pays his bill out of a government expense account.

Out of every 100 persons who occupy space in aircraft landing in or taking off from Britain 97 are travelling for the government, at government expense. Ninety-eight per cent of all gasoline sold in England is paid for by government vouchers. And every factory or business institution employing more than 50 employees has at least one visitor each day from one or another of the government's many departments.

I don't think we are quite as bad as that in this country but we are rapidly moving in that direction. And all these bills have to be paid out of taxation—which means by you and me. And everytime we call upon the government to undertake a new task we are merely asking them to increase our taxes. This should give us cause for a little sober thought.

If we get many more people working for the government then the load on the taxpayer is going to be unbearable. It may be true that civil servants pay taxes too, but the money they pay to pay their taxes with is money which already has been collected from you and me as taxes—so it doesn't

## W.I. Members Have Pleasant Afternoon

About 60 members of Champion, Kirkcaldy, Good Deeds, Reid Hill and Thigh Hill W.I.'s gathered at the home of Mrs. O. B. Roe on Wednesday afternoon, when the Thigh Hill branch were hostesses. The guests enjoyed an hour's stroll through the beautiful grounds of the Roe home, drinking in the breath-taking loveliness of nearly every variety of flower and shrub one could think of. The arrangement and care evident everywhere were abundant proof of the Roe's love of beauty.

Benches and chairs were arranged on the wide verandahs and under shady trees on the lawn. After a brief business session, an interesting program, convened by Mrs. Boyd McKay, was presented. Guessing games and a contest brought forth much laughter and proved entertaining.

At the conclusion of the afternoon a sumptuous lunch was served, with Mrs. Earl Deal in charge of arrangements. Many members of the hostess branch assisted Mrs. Roe and Mrs. Deal with the serving. Mrs. Rosa Walker extended an invitation to the branches to be guests of the Reid Hill branch on August 8th. The thanks of the different branches was expressed to the Thigh Hill ladies.

## Make Preparations For Big Rodeo

Preparations for the big Rodeo and Carnival sponsored by the Lions Club are speeding up as the date of July 23-24 draws nearer.

Work will begin this week on the construction of the corals and chutes at the golf grounds and everything will be in readiness soon.

The dance floor has been laid at the skating rink and the carnival booths are being constructed, work being done by volunteer members of the Lions Club.

## A Record Crowd At Brant Sports

The largest crowd in many years turned out to join in the 1st of July celebration at Brant.

The football tournament produced some of the best ball seen in these parts for a long time. Lyalta wound up with first money; Calgary Model Dairies in second place. Bicycle and foot races were held for young and old. The dance at night was well attended and everyone seemed to have a fine time. During the dance the draw was made for an Electric Mixer which was the gate prize. The lucky ticket was held by Mrs. Inez Prater of the Brant district.

The officers of the Community Club wish to thank those of the district who gave so generously of their time and efforts to make the day a real success. The district is now looking forward to several high class football games when the provincial playoffs start with Brant team participating.

MAXWELL R. MORRISON

## Max R. Morrison Awarded O.B.E. For War Work

Former president of the Co-ordinating Council of Auxiliary War Services at Lethbridge, Mr. Maxwell R. Morrison, now of Vulcan, is named an Officer of the Civil Division of the Most Excellent Order of the British Empire (O.B.E.), in the Dominion Day, Canadian civil honors list.

Mr. Morrison was born at Atwood, Ont., and joined the Bank of Hamilton staff there in 1912. Moving to western Canada, he was manager of the Cayley branch of the bank from 1917 to 1924. He lived in Calgary from 1927 to 1938, moving to Lethbridge in 1938. He was Massey-Harris dealer in the southern city from 1939 until he purchased the business of W. H. Turley in Vulcan in 1945.

During his residence in Lethbridge, Mr. Morrison took an active part in the Co-ordinating Council of Auxiliary War Services, acting as treasurer for one year and president for two and a half years. He was also chairman of the War Services Committee of the Lethbridge Kiwanis Club for two years and was one of the Kiwanis Club team captains in five Victory Loan drives. For three years Mr. Morrison was chairman of the Fireside Hour committee of Southminster United Church, Lethbridge, which was organized for Sunday evening entertainment of the armed forces. The Advocate joins with Mr. Morrison's many friends in extending congratulations.

## Mayview Social Club Meets

The regular meeting of the Sunshine Social Club was held on July 4th at the home of Mrs. A. J. Clayton, taking the form of a garden party.

It was agreed to shelve the plans for the annual picnic for this month at least. The members decided to accept Mr. Steiner's offer of lilac bushes for the hall and cemetery, which are being renovated as a community project. Mrs. J. Smith and Mrs. L. E. Richardson were appointed to write and send a petition asking that Vulcan be considered as a site for an agricultural college.

At the conclusion of the business meeting Miss Joan Thomas, of Reid Hill, gave two amusing recitations. Before the lunch hour the members and visitors strolled about the beautiful grounds.

The next meeting will be held at the home of Mrs. L. Coe on Aug. 1st, and a demonstration of household knick-knacks will be held at Mrs. Hanna's home Aug. 9th.

help to lighten our load.

Just about now I think we should stop, look and listen, and ask ourselves just where we are heading. Somehow the road ahead doesn't seem to be getting any easier.

Are you going away on a trip? Have you any visitors? Do you know any news that would be of interest to the residents of Vulcan and district? The Advocate wants all the news of the town and district and we can only get it with your help and co-operation. Phone 36 or 118.

## Dedication Service Sunday For Memorial Swimming Pool

Impressive Ceremony Planned By Lions Club; Other Organizations to Take Part

The Lions Club has completed plans for a dedication service at the Vulcan and district Swimming Pool and Memorial on Sunday, July 14th, at 2 p.m.

The pool, just finished, was built as a memorial to the men of the town and district who gave their lives in World War II, and is of fine, modern construction. The large pool and small wading pool will have filtered, heated water, diving boards, bath houses, showers, and even a sand pile for the toddlers.

Adjacent to the pool is an impressive granite monument on which are the names of the thirty-three men who fought and died between 1939 and 1945. Special invitations have been sent to the next-of-kin of these men and to all organizations. Of course, the public, too, is cordially invited, and it is hoped that the citizens from Vulcan and district will be present to pay their respects to the gallant boys who won't be coming back. The Militia, Cadets and other organizations will meet at the Legion Hall at 1:30, from where they will march to the service. Parents and friends are asked to place any wreaths and sprays they wish on the monument before the services commence.

## Need Subscriptions For Swimming Pool

Although the Memorial Swimming pool is nearing completion, the building fund is still short of its objective.

Have you contributed all you can spare? Further subscriptions are needed to reach the objective, and any amount, large or small, that you can spare, will be welcomed. The Lions Club needs your help now to reach the total needed for this worthy cause—a living memorial to Vulcan's war dead. Any Lions Club member will gladly accept your subscription.

## Health Nurse Warns Re Whoop'g-cough

Several cases of whooping cough have been reported in the Vulcan district in the past two weeks. Parents are reminded that this is a serious disease for babies and pre-school children. Please co-operate by reporting all cases to your doctor in your local health department.

Inoculations for the prevention of whooping cough may be given to children at a very early age. If your child has not already been immunized against whooping cough consult your family doctor or visit the regular baby clinic held the second Tuesday in each month in the Church hall.

## BATTLING FAMINE

## Leading Food Expert Sask. Man

Dr. D. A. Fitzgerald who is the U.S. government's leading specialist on international food problems, is a Saskatchewan man born on a wheat farm near Grenfell. He was trained at University of Saskatchewan but has been in United States since 1924.

He will direct the world campaign against famine. There are a combination of committees from Canada, Britain, United States, Australia, China, France Denmark and India all engaged in trying to meet the world food crisis for the next 16 months.

## Important Post For Former Vulcanite

Mr. R. H. McDade, a former member of the Canadian Bank of Commerce staff, Vulcan, Alta., before taking military service in the First Great War, has recently been appointed an Assistant General Manager at the Head Office in Toronto.

A native of Nova Scotia, he has had wide banking experience in Western branches, manager at Rio de Janeiro, Superintendent at Head Office and manager at London, England.

No doubt some of the old timers in the district will remember Mr. McDade.

## Interesting Meeting Kirkealdy W.I.

The Kirkcaldy W.I. met at the home of Mrs. W. Munro on Friday last with fourteen members and two visitors present. Roll call was answered by social welfare items. Mrs. Williams won the war saving stamp raffle.

A paper on "Spare the Rod and Spoil the Child by Mrs. Anderson was greatly enjoyed and was followed by a general discussion on the topic. A number of articles for the baby layette were brought in and will be forwarded to the District Health Nurse. It was decided that each member donate fifty cents toward the Junior Red Cross project, making a total sum of \$10, to be sent in by Sept. 1st. A two-day sewing demonstration will be held at the hall in August if a date can be arranged. Mrs. Hagerman gave a splendid paper on Social welfare, dealing with health insurance and state medicine. A reading by Mrs. Flitten was greatly enjoyed.

The next meeting will take the form of a social afternoon and will be held at the home of Mrs. McDonald on Friday, July 26th.

## News From CHAMPION

Mrs. Margaret Sanderson, the Misses Mavis Sanderson, Gloria and Carol Fraser, have left for a month's visit with Mrs. Sanderson's son at Michel, B.C.

### THE COST OF WAR

Up to March 31, 1945, World War II had cost Canada alone over 15 billion dollars. This amount would pay for a house for every second family in Canada, costing \$8,000, and house repairs for every other family up to \$210. In addition, it would provide, for every family, a car, a refrigerator, a vacuum cleaner, a sewing machine, a cook stove, and new furniture worth \$200.

## Letters to the Editor

127 10th Ave. N.W.  
Calgary, Alberta.

The Editor,  
Vulcan Advocate.

Dear Sir:—  
May I use space in your paper as I leave Vulcan to live in Calgary? I spent thirty years in Vulcan, so saw the town grow and expand: The school grew from three rooms to the present nine. During these years the various school boards conferred much kindness and many favours upon me. They showed their trust in me at all times and I hope it was not misplaced. To them I wish to say a very sincere thank you.

The members of the Home and School Association, together with the present school board, deserve great thanks for the wonderful party given me recently. Its memory will never leave me.

To the scores of former pupils and parents who have sent me letters of appreciation and good wishes, I say a humble thank you. They have greatly warmed my heart.

To the mothers, who through the years took time occasionally to send a note of appreciation and encouragement, again I say many thanks.

Vulcan will always be a second home to me and I shall always be keenly interested in those who have been in my classes.

Sincerely,  
LUCY A. FAIR.

In Support of Subsidies

Dear Sir:—

The principle of paying subsidies has been followed by several governments during the progress of the war. The policy has, generally speaking, given satisfaction to most consumers. Unfortunately, farmers' organizations as well as labor unions have expressed disagreement with the principle of the payment of subsidies. Their claim is that it would be better to pay the amount of the subsidy to the producer, as part of the production costs. I think they are mistaken in this attitude as that would increase the price to the consumer. On the other hand, the subsidy reduces the price to the consumer, and I think there are possibilities in this direction, which, if done in the proper manner, would settle the financial problems of both farmers and labor. At present these subsidies are being obtained by taxation, which means that purchasing power being taken away from some and given back again to others; in many cases to the same people, and expenses incurred in doing so. How much better it would be if the Government of Canada, having determined that subsidies on certain consumable goods are necessary, would order the Bank of Canada to credit the milk retailer with the 2c per quarter subsidy, without taxation on anybody. The retailer, of course, selling to the consumer for 2c less. This principle

## Pertinent Topics

Discussed by H.C.

The new Soviet ambassador to Washington promises that his country will never start a war against the United States. It has not the same powerful official sanction as the promises made to Poland and Finland, but is more likely to be observed. Sometimes the implementing of a promise depends upon the size and strength of the party of the second part. I, for one, would be more careful to carry out a promise to Joe Louis than one made to Billy Conn.

Dr. Samuel Johnson's liquor prescription was claret for boys, whisky for men, brandy for heroes. To this might be added "and vodka for diplomats."

Not for nothing did the Prime Minister declare that all the living Senators owe their elevation to him. Some of them were showing signs of resistance to a few government measures.

There was a time when he expected as one condition of appointment a pledge that the Senator would vote, when called upon for the abolition of the Senate. If opposition members were not so eager to avoid embarrassing him one of them might ask if that rule is still in vogue; if not when and why it was discontinued.

Before India had got fairly started on her own she preferred a charge against South Africa to be placed before the U.N. Egypt had hardly started when King Farouk gave asylum to the Mufi whom France had allowed to escape. All those "liberated" countries can be placed in the same category as Poland and the Ukraine—stooges doing whatever Soviet Russia thinks will embarrass her two big Allies, Argentina and Chili are qualifying for similar stunts.

Those friends of Russia who declare that criticism of her is war-talk that may well end in war would be wise to heed the warning their words convey to others if not to themselves, unless indeed they aspire to be quislings to their own country and martyrs to their faith in the ideologies of a foreign state.

In Palestine Jewish leaders call for passive resistance which will include non-payment of taxes. Thus do they require their followers to make the supreme sacrifice in behalf of their principles—and interests.

English scientists are working to develop concrete that will age beautifully. It must be for buildings only. Heavily laden trucks do not permit pavements to age, one way or the other. Often they do not survive the debentures with which they are paid.

Some people say the atom experiment at Bikini was a failure "Paradoxical as it may appear unto Thee, O Lord," as the Scots preacher said in his prayer, if it was a failure it was a success.

Accompanied by her lawyer, Mrs. Fred Rose has been lobbying his fellow M.P.'s to protest against what she calls his "isolation." Until Germany attacked Russia, he was in favor of isolation.

"Scattered rains," varied sometimes to "widely scattered rains" do good to the crops where they fall, and help the forecaster with a prediction that makes a check-up difficult if not impossible.

ple could be carried out with all consumer goods, farm machinery and clothing for instance, so that all sections of the community would receive similar benefits. In this way the actual cost of living could be lowered and present income and wages would have greater purchasing power. As we are all consumers, such action would benefit everybody.

Each consumer would see to it that the retailer gave the discount so there would be no need for any inspectors. This is one way the people of Canada could get some benefit from being the owners of the Bank of Canada, therefore we should all be members of a consumers' union and demand that the Dominion Government order the Bank of Canada to put these discounts into effect.

Canada would then become a consumers' paradise; and as we are all consumers, nobody would be excluded.

Yours truly,  
H. E. NICHOLS.

"Any man can find work if he'll only use his brains," said the efficiency expert, "providing, of course, he is ready to adapt himself to circumstances like a piano-tuner. I once met on the prairie." "But even if he is adaptable," protested one listener, "he couldn't make piano-tuning pay with pianos so few and far between." "Admitted," replied the expert, "but he made quite a decent living tightening up wire fences."

## Frank Voros Dies on July 4

Frank Voros, Hardisty cowboy, who was injured at the Nanton Stampede in a steer riding contest on June 20, died in High River hospital on July 4 without regaining consciousness. The young man's parents live in Windsor, Ontario, and so do three brothers. His wife, and her parents, Mr. and Mrs. Art Long of Irma have been in High River since the accident occurred.

Funeral services were held in Leydon's chapel, Calgary, on Monday, July 8, with the Jones' Funeral Home, High River, in charge of arrangements. Rev. C. Dwight Powell officiated at the service. Funeral arrangements waited.

## HAIL INSURANCE

### Line and Board

We now arrive at the critical stage

To DO or

NOT to DO

What say YOU?

Oh yes, last week I promised to tell you about Mr. X. He insured, was hailed 100%, his policy called for insurance 6 miles east of him. We PAID THIS CLAIM but were not obliged to do so.

Mr. Voros had served 2½ years in the Canadian army and this was to have been his last season in the rodeo competitions.

## Okotoks Youth Drowns at Louise

Clifford Frederick Miller, 22-year-old son of Mr. and Mrs. Joseph Miller of the Willingdon hotel, Okotoks, was drowned in a canoe accident at Lake Louise on June 23.

The young man was an excellent swimmer. He was boating with Hugh Hamilton of Calgary when the canoe overturned. It is believed his attempt to save his companion cost him his own life. Born in Okotoks and educated there, he joined the R.C.N.V.R. and after training at Calgary, Esquimalt, B. C., and St. Hyacinthe, Que., was assigned to Fairmile Q120 as signalman T.O. and was on active service for three years.

Following his recent discharge he joined the geological department of the Imperial Oil Co. at Turner Valley. As a boy he was prominent in athletic activities in his community. He was a member of St. James church, Okotoks. He is survived by his parents and two brothers, Kenneth and James, all of Okotoks.

## Farm Work Hours

(London Free Press)

After several years of opposition to the short-working-hour programs of the Labor unions some farmers in Ontario are now accepting it as a workable theory. The York County Federation of Agriculture, for example, has unanimously adopted a resolution calling for a 44-hour farm week; at the same time it urges a 33 per cent increase in the cost of farm products.

In farm work it is not possible to limit the work hours in a day. The farm cannot be run like a factory—unless the farmer is to employ two shifts of workers, something his economy cannot support. In Britain where there is a farm laborers' union, rates of pay and working hours are fixed, and they seem to be producing large amounts of food per acre and working the land efficiently. The government guarantees prices in some products, and local agricultural councils insure proper tillage. Inefficient and inadequate farmers are not permitted to operate.

The farm is still the primary industry in Canada and one of the most pressing problems now confronting the government is to devise some plan whereby the farmer shall have sufficient labor and returns so that he can continue to produce the foodstuffs which we and the world must have.

American housewives would prefer the old days of rationing, believing consumer goods were more fairly distributed then.

Britain's bread ration is now set at 9 ounces. Working men are allowed 15 ounces.

Oriental jewels of fabulous value have been unearthed in the smashing of a Canadian-wide lottery and narcotic ring. These were found in Chinatown, Vancouver.

## MILO NEWS

Grain is starting to head out in the Milo district, and the present prospects are good, if nothing bad befalls.

The picnic sponsored by the Milo I.O.O.F. on July 1 was a really successful event with the whole community responding to the general invitation extended. The picnic grounds were the lovely spot on the river near Cluny. This is a "natural" for suitable setting with beautiful shade trees, a clear spring nearby and nice grounds for basement. Fully 200 people joined in the get together. There were sports and novelty events for young and old, as well as a number of baseball and softball games. Many preferred an afternoon of leisure and visiting under the trees, and the ideal day permitted everyone to follow his special bent in amusement. The picnic supper was a highlight, as it always is. The I.O.O.F. intend making this an annual event.

Mr. and Mrs. Caspell left by motor for the Pacific Coast, where they will spend two weeks. They will reside in Cranbrook, B.C.

## YOUR CHARGE ACCOUNT

Consumer credit regulations deal with the length of time permitted to customers for paying bills. Formerly, charge accounts were required to be paid by the 25th day of the month following the month in which the purchases were made. Under the new order, charge accounts are payable by the tenth day of the second month after the purchase. For example, if you buy an article in July and have it put on your charge account, the store may allow you to defer paying for it until September 10th—though the store is not obliged to let your account run so long and may insist on your paying sooner. If, however, the new maximum length of credit applies in the store where you have a charge account, and you fail to pay on time, the store is not permitted to let you buy and charge to your account more than \$10 worth of goods—(W.T.P.B.)

## EVERYBODY ON STRIKE

(Letter to the St. Louis Post-Dispatch)

Sir:—America is on strike.

The farmer wouldn't sell his grain until the ceilings were boosted.

The manufacturer won't produce until his ceilings are lifted.

The laborer won't work until his wages are increased.

The president won't act without special legislation from congress.

Congress won't act without word from the people.

The people won't act because they are so occupied being farmers, manufacturers, laborers, presidents and congressmen that they haven't time to be Americans.

ROBERT S. KUNKEL.
